

UTILITY FLASHLIGHT - LIGHTSTORM CL1

The LightStorm CL1 Utility Flashlight puts out the light needed for any maintenance job and it will do it without fail. LightStorm CL1 rechargeable flashlights feature a precision parabolic reflector that collects and projects the high intensity light from the Quasar LED into a piercing beam able to spot illuminate objects up to 80-ft (26m) away.

Key Features:

- 2 light settings: High-intensity Beam and Flood Light
- High efficiency dynamo charging system coupled with ultra-capacitor technology
- Durable, shock resistant construction holds up to diesel fuel and motor oil
- Built-in power jack for charging cell phones and GPS units

Specifications:

| | |
|--------------------------------|---------------------------------------------|
| Spot Light Illumination Range | 80-ft (24m) / Beam size: 9-ft (2.7m) |
| Flood Light Illumination Range | 20-ft (6m) / Beam size: 12-ft (3.6m) |
| Max Lumen Output | 40 lm |
| Quasar LED Power | 0.5 watts |
| StarCore LED Power | 0.1 watts |
| Charging Time | 120 seconds |
| Spot Light Duration | 15 minutes |
| Flood Light Duration | 20 minutes |
| Water Resistance | Withstands Rain |
| Impact Strength | Withstands 4-ft drops |
| Operational Temp | -40°F (-40°C) to +130°F (54°C) |
| Storage Temp | -50° F (-45° C) to +140° F (60° C) |
| LED Life | 50,000 hours |
| Capacitor Life | >100,000 charge cycles |
| Size | Length: 6" (15cm) x 2" (5cm) x 1.8" (4.4cm) |
| Weight | 7.4 ounce (207 grams) |

The LightStorm CL1 Utility Flashlight uses a Carbon Ultra-Capacitor to store energy, which can be recharged over 100,000 times, will operate in extreme temperatures and will never corrode. Whether making repairs to water pipes, hydraulic lines or electrical grids, the LightStorm CL1 Utility Flashlight will help get the job done when all other lights have gone out. It also has a built-in power jack and comes with a charging cable and Mini USB connector suitable for charging Motorola V3, V6, and Blackberry phones as well as most GPS devices.

Engineered in the U.S.A.

Never Needs Batteries

Never Needs Bulbs

Withstands Rain

Chemical Resistant

Shock Resistant

Works at Extreme Temperatures
