

EMERGENCY FLASHLIGHT - LIGHTSTORM SL1

A flashlight, a lantern, and more! The LightStorm SL1 Emergency Flashlight has a fold out handle which allows it to be held as a flashlight or hung as a lantern. LightStorm SL1 rechargeable flashlights also feature Red StarCore LEDs that flash once per second, enabling LightStorm SL1 to be used as a warning indicator at accident scenes and as a signaling device in emergency situations.

Key Features:

- 3 Light Settings: Broad Flood Light, Narrow Flood Light, Flashing Red Light
- Multi-position handle - SL1 can be held as a flashlight or hung like a lantern
- Magnetic feet securely holds SL1 to car hoods and tool boxes
- Reflective LED panel enables SL1 to be used as a signaling mirror during the day
- Built-in power jack for charging cell phones, GPS units and music players

Specifications:

Quasar Light Illumination	25-ft (7.6m) / Beam size: 12-ft (3.6m)
StarCore Light Illumination	18-ft (5.5m) / Beam size: 15-ft (4.5m)
Quasar LED Power	0.5 watts
StarCore LED Power	0.1 watts
Charging Time	120 seconds
Narrow Flood Light Duration	15 minutes
Broad Flood Light Duration	17 minutes
Flashing Red Light Duration	15 minutes
Water Resistance	Withstands Rain
Impact Strength	Withstands 4-ft drops
Operational Temp	-40°F (-40°C) to +130°F (54°C)
Storage Temp	-50° F (-45° C) to +140° F (60° C)
LED Life	50,000 hours
Capacitor Life	>100,000 charge cycles
Size	Diameter: 4" (10cm) / Thickness: 1.5" (4cm)
Weight	Weight: 8.6 oz (209 gr)

The LightStorm SL1 Emergency Flashlight uses a Carbon Ultra-Capacitor and can be counted on to work over the long haul even when subjected to harsh environments. LightStorm SL1 also features a luminescent center band which glows for hours, enabling the light to be easily found when needed.
