

TACTICAL FLASHLIGHT - NIGHTSTAR 3

The NightStar Tactical Flashlight is used by all branches of the military. NightStar rechargeable flashlights have saved lives and continue to make a difference everyday in hazardous conditions around the world. NightStar tactical flashlights need no batteries, bulbs or maintenance and will pay for themselves immediately by needing no logistical support.

Key Features:

- NightStar will pierce the darkness even after years of abuse and neglect
- Never Needs Batteries or any Logistical Support
- Economical - Will quickly pay for itself
- Luminescent switch allows for easy location and operation
- Floats with lens pointing up

Specifications:

Illumination Range	50-ft. (15m) / Beam size: 12-ft (3.6m)
Lumen Output	5 lm
Peak Brightness	16,000 Lux, 1500 ft-candles
LED Power	0.10 watts
Charging Time	30 seconds
Light Duration	15 minutes
Waterproof	200-ft (61 m)
Corrosion Proof	Motor Oil, Diesel Fuel, Salt Water, Mild Acids
Impact Strength	Withstands 4-ft drops
Operational Temp	-40°F (-40°C) to +140°F (70°C)
Storage Temp	-50°F (-45°C) to +140°F (70°C)
Capacitor Cycle Life	100,000 charges
LED Life	50,000 hours
Size	Length: 10"(25cm), Diameter 1.5" (3.8cm)
Weight	11 oz (308 gr)
Warranty	5-year

"I am a flight medic who frequently spends long amounts of time in back woods 3rd world areas where batteries are non-existent. All the cool little tactical flashlights that cost \$200 and are made of titanium whatever don't do you a bit of good with no batteries. Your light on the other hand has worked forever in every condition from the Arctic cold (we are the air wing that rescued that doctor off the South Pole) to the heat of Oman. And while I still carry a Photon and a few chem sticks (you always need a plan B and C) I rely on your light as my primary." - SSGT J.R. USAF, 109th Medical Wing

HIGH-STRENGTH POLYCARBONATE HOUSING

UNIFORM BEAM

SILENT & EFFICIENT CHARGING SYSTEM

COMBAT TESTED

Engineered in the U.S.A.

Never Needs Batteries

Never Needs Bulbs

Submersible to 200 ft. (60 m)

Chemical Resistant

Shock Resistant

Works at Extreme Temperatures
