Capacitor Cycle Life	>100,000 charges
LED Life	50,000 hours
Size	Length: 7"(18cm), Diameter: 1.3" (3.3cm)
Weight	7 oz (196 gr)
Warranty	5-year

"I've bow hunted the back woods of Colorado and had to walk out in total darkness, only because the flashlight I brought with me failed. A 3 mile walk back to camp in total darkness can be real scary when you've seen bear earlier in the day. I bought one of your NightStar flashlights for my backpack knowing I will never be left in the dark again. I was so impressed with the flashlight I bought 3 more; one for each of my daughters and one for my wife. They carry them in their cars. Thanks so very much." - Richard Menage - Sioux Falls, SD

SILENT & EFFICIENT CHARGING SYSTEM

Engineered in the U.S.A.

Never Needs Batteries

Never Needs Bulbs

Submersible to 200 ft. (60 m)

Chemical Resistant

Shock Resistant

Works at Extreme Temperatures
