

SWIVEL HEAD FLASHLIGHT - SHAPESHIFTER

The ShapeShifter Swivel Head Flashlight uses dynamo recharge technology built into a rugged housing capable of repositioning its beam on demand. With their 320 degree rotating head, ShapeShifter rechargeable flashlights can be slipped into vest pockets or placed on work surfaces to provide hands free uniform illumination.

Key Features:

- 3 Light Settings: 1 LED Light, 3 LED Light, 3 LEDs Flashing
- Versatile 320 degree rotating head
- Can be recharged in less than 2 minutes
- Durable and futuristic construction
- Stands on its own and makes a great emergency work light
