

CRANK FLASHLIGHT - VIPER

The Viper Crank Flashlight features a powerful recharging dynamo generator and unique LED light imaging system. Viper rechargeable flashlights use StarCore LEDs and specially designed optics to produce a uniform beam of light capable of illuminating objects up to 60-ft (18m) away.

Key Features:

- Unique lens design combines light from a tripple StarCore LED array
- Uniform spot light beam
- Efficient dynamo recharge system
- Sleek & ergonomic design
- Durable housing and lens

Specifications:

Illumination Range	60-ft. (18m) / Beam size: 14-ft. (3m)
LED Power	0.10 watts each
Charging Time	60 seconds
Light Duration	10 minutes
Water Resistance	Withstands Rain
Impact Strength	Withstands 4-ft (1.2m) drops
Operational Temp	5°F (-8°C) to +110°F (70°C)
Storage Temp	0°F (-17°C) to +120°F (49°C)
LED Life	50,000 hours
Size	Length: 6"(15cm), Diameter: 2.3" (5.7cm) x 1.8" (4.4cm)
Weight	6.6 oz (185 gr)

The Viper Crank Flashlight is a great general purpose light that can reliably pierce the darkness at home, at work, or far from civilization.
