

## UNDERWATER FLASHLIGHT - VORTEX

The Vortex Underwater Flashlight will pierce the murky depths and can be recharged while diving. Vortex rechargeable flashlights feature a 1 watt Quasar LED and a specially designed parabolic reflector that will spot illuminate objects 120 feet away on land and over 40 feet away in clear water.

### Key Features:

- 3 Light Settings: Super High-intensity Spot Light, Flood Light, Flashing Spot Light
- Durable, waterproof, and shock resistant construction
- Efficient and reliable dynamo generator
- Built-in power jack for charging music players and GPS units

### Specifications:

Spot Light Illumination Range	120-ft. (37m) / Beam size: 14-ft. (4.3m) - Land
Spot Light Illumination Range	40-ft. (12m) / Beam size: 7-ft. (3m) - Water
Lumen Output	60 lm
Quasar LED Power	1.0 watt
StarCore LED Power	0.1 watt
Charging Time	120 seconds
Spot Light Duration	15 minutes
Flood Light Duration	20 minutes
Flashing Spot Light Duration	25 minutes
Waterproof	60-ft. (18m)
Impact Strength	Withstands 5-ft drops (1.5m)
Operational Temp	5°F (-8°C) to +110°F (70°C)
Storage Temp	0°F (-17°C) to +120°F (49°C)
LED Life	50,000 hours
Charge Port	6 volt - 200 mA output
Size	Length: 7" (17.3cm) x 2.7" (6.9cm) x 2.2" (5.7cm)
Weight	11 oz (312 gr)

The Vortex Underwater Flashlight also features a brushless dynamo generator that can always be counted on to efficiently recharge the light in less than 2 minutes. On a full charge the Vortex Underwater Flashlight will illuminate the darkness for more than 15 minutes. The Vortex Underwater Flashlight is not only an ideal shallow dive light but it's also a fantastic general purpose flashlight that can be counted on at home, at work and on the road.
